1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claims 1 and 26 recite a container dispenser and a method of dispensing containers having vertical guides and containers having a top being smaller than its base. The guides are arranged in sets. There are two abutments rotatably mounted in a plane normal to a longitudinal center axis of the set. There is a cutaway portion in each abutment and which are offset from each other. The abutments are rotated to dispense the containers from a set. Claim 1 further recites that the abutments are vertically separated by less than a height of one container. The recited structure and its interrelationship to each are not taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Janssen is cited disclosing in figure 8 tubes 50 to enclose and protect a product.

Van Brunt is cited showing in figure 1 a dispenser utilizing rotating release members 18, 22.
